

When you are finished using your Empire marker it is important that you prepare it for storage. This will not only serve to increase the life of the marker, but will assure optimum performance on your next outing.

- The Empire marker must be clear of all paint and air sources when not being used.
- Be sure to have marker de-cocked and in “safe mode” when not in use.
- Make sure a barrel-blocking device is in place.
- Store your Empire marker and propellant in cool dry place.
- Keep your Empire marker away from unsupervised children.
- Your Empire marker must be free of all paint and not attached to a propellant source while being transported to and from the playing field.
- Observe and obey all local, state, and federal laws concerning the transportation of paintball markers. For information concerning any of the laws in your area, contact your local law enforcement.
- Always store the marker in a secure location when not in use so as to prevent access by unauthorized persons.

Schematic #	Description	SKU#
1	Safety Ball	10730
2	Safety Spring	10750
3	Trigger Pin	10766
4	Grip Screws	10782
5	Feed Elbow (complete)	17757
6	Feed Elbow Screw	17759
7	Feed Elbow Lever	17760
8	Feed Elbow Collar	17761
9	Feed Elbow Seat	17762

Schematic #	Description	SKU#
10	Feed Elbow Spacer	17763
11	Trigger Frame	17956
12	Trigger Frame Screw (10-32 x.5)	17957
13	Grips	17959
14	Barrel	19250
15	Pump Handle	19251
16	Pump Screw	19252
17	Pump Screw O-ring	19253
18	Body	19254
19	Velocity Adjuster Wrench	19255
20	Top Rail	19256
21	Top Rail Screw	19257
22	Trigger	19258
23	Trigger Spring	19259
24	Safety Slide	19260
25	Bolt	19261
26	Bolt O-ring	19262
27	Velocity Adjuster	19263
28	Velocity Adjuster O-ring	19264
29	Main spring	19265
30	Hammer Assembly	19266
31	Sear Assembly (sear, pin, and spring)	19267
32	Power Tube	19268
33	Power Tube Nut	19269
34	Power Tube Nut O-ring	19270
35	Cupseal	19387
36	Cupseal Nut	19394
37	Valve Spring	19273
38	Valve Housing	19274
39	Detent	19275
40	Trigger Set Screw	19276
